Animal Location Tracking

Digital Dairy Management

Missing HEAT

Unidentified Health Issue

Unreliable Eco-System

No Scientific Nutrition

Zero Data Support

FlixDrop is a Agri-tech Product Company with Data Analytics in the core DNA. We aim to drive Quality & Yield in cattle milk per with Global standard

CHMS is a multi-metric, cloud-based 'Smart Collar' for dairy cattle that improves the effectiveness of your farm's breeding programs and reduces health care costs through early illness detection.

We are monitoring Cattle health parameters 24/7 and our automatic remote alert system generates HEAT & HEALTH notifications, displayed at your phone.
